

Timaru Christian Preschool's Greenhouse

The tamariki and kaiako have been busy this term in our gardens. We are very blessed here at Timaru Christian Preschool to have a greenhouse, which was able to be purchased a few years ago through WAVE funding. The greenhouse has ensured a plentiful crop of vegetables and fruit, despite the cooler weather, along with what was grown in our garden boxes.

The tamariki have helped harvest, prepare, cook and eat what they have grown, including Zucchini Cookies, Broccoli Bread, Vegetable Fritters and Potato Wedges, the most favoured though was Corn on the Cob.

The surplus produce was taken home and tamariki frequently would excitedly share, that their family had eaten something for tea the night before, that had come from the preschool's garden.
